学术报告

题目: Ecological and human health impacts of intensifying global climate change

报告专家: Prof. Hilary I. Inyang

时间: 2024年11月18日 (周一) 9:30

地点: 环测A512

报告专家简介:

Prof. Inyang is the co-founder and honorary president of ISEG, and fellow of African Academy of Science. He currently serves as the Founding Chairman of the Global Institute for Sustainable Development, Advanced Analyses and Design (GISDAAD) that is headquartered in Charlotte, Concord, North Carolina, USA.

题目: Critical Minerals for Clean Energy Technologies

报告专家: Dr. Sue Struthers

时间: 2024年11月18日 (周一) 10:30

地点: 环测A512

报告专家简介:

Sue Struthers, a mining geologist and environmental engineer, has 40 years of experience in the mining industry, including roles in Zambia and Australia. Her expertise expanded to environmental engineering with a PhD focused on mine tailings recycling. Now an independent consultant with Skapa Mining Services, she contributes to diverse projects, addressing areas from geochemical investigations to compliance with international standards.
